Computer

CLASS :- 3

LESSON :- 1- Introduction to Computers

1. Fill in the blanks with the correct word.

- a. <u>LCD</u>monitors consume less electricity.
- b. <u>Inkjet</u> printers form characters on the paper by spraying ink from tiny nozzles.
- c. <u>Memory</u> unit stores the input and the output data.
- d. Keyboard is an input device.
- e. <u>CPU</u> is the main processing device.

2. Give the full form of the following :

- a. CPU :- Central Processing Unit
- b. CRT :- Cathode Ray Tube
- c. LCD :- Liquid Crystal Display
- d. IPO :- Input Process Output

3. Write the names of the following devices and their functions :

Device Name		Functions
a.	MOUSE	Mouse is used to give commands and input data to the Computer.
b.	KEYBOARD	Keyboard is used to enter data and gives commands
		to the computer.
c.	СРО	CPU is the processing device. It does all the processing
		and decision making in the computer.
d.	PRINTER	Printer gives output onto the paper

4. Answer the following questions in 2-3 lines.

a. What is IPO cycle?

Ans. A computer follows the I.P.O. Cycle to work . It needs certain input, carries out a process and produce a output. IPO stands for Input Process Output.

b. What is the purpose of an Input device?

Ans. The purpose of an input device is to provide data and instructions to the computer.

c. What is a CPU?

Ans. CPU stands for Central Processing Unit. It does all the processing and decision making in the computer.

d. Name any two input devices and output devices.

Ans. Input devices :- Keyboard, Mouse

Output devices :- Monitor, Printer
