Understanding the text(page-37) /

Q.1 What were the children doing when they found the sand fairy?

Ans. The children were making sandcastle in a big gravel pit.

Q.2 What was the name of the sand -fairy? Describe it in a few sentences.

Ans. The name of sand fairy was Psammead. It was a fat, furry brown creature with arms, legs, feet and hands like a monkey's, long whiskers and pointed ears etc.

Q.3 Do you think children were happy when their second wish came true? Explain.

Ans. Yes, they were very happy when their second wish come true because it was their heart-felt wish but when Martha did not recognize them and shut the door in their faces, they regretted what they did.

Q.4 Why did Martha not believe what the children told her? What did they do when Martha sent them away?

Ans. Martha did not believe what the children told her because she could not recognize their faces as they had turned into astonishingly beautiful. When Martha sent them away, they had nowhere to go as well as they were very hungry and thirsty. Ultimately, they sat down under a hedge.

Q.5 Why did Martha let the children into the house again?

Ans. Martha let the children into the house again because magic done by the fairy on them were off at sunset and so after that they all looked normal again.

B. 1. Afraid , repeated creature indignantly. Me? Don't you know a psammead when you see one?

(a) Who is the psammead speaking to?

Ans. The Psammead was speaking to children.

(b) Why do you think it sounds annoyed?

Ans. It sounded annoyed because the children did not recognize it. It was as though the psammead expected everyone to know about it and recognize it.

2. The psammead's head and whiskers dropped.

(a) What does this sentence mean?

Ans. That sentence means that its face suddenly became dull and he looked sad.

(b) Why did it happen so? What do you think the psammead is feeling?

Ans. The children used to build castles on the beach for us to live in but they would dig so deep around them and that nasty sea would rush in because of that we catch cold and die. The Psammead felt sad remembering the other Psammead's who had died.

3. Oh I please can we have another one?

(a) Who says this line and to whom?

Ans. Jane said this to the psammead.

(b) What is the speaker asking for? Is it something children normally get?

Ans. Jane is asking the Psammead for another wish. No, children get wishes granted only fairy stories.

4. And you two girls look like silly greeting cards.

(a) Who says this and to whom?

Ans. Robert said to Jane and Anthea looked like silly greeting cards.

(b) What do you think the speaker means?

Ans. This means that they looked too pretty in an unnatural way.

5. They were horrible. They stopped us from coming home untill now. We only just got away and we're staving.

(a) Who says this and to whom?

Ans. Anthea said this to Martha.

(b) Who is the speaker talking about? Why does the speaker say so?

Ans. The speaker was talking about the strange children. The speaker said so because Martha did not allow the strange children in the house.

Chapter – 5

Circulatory System And Excretory System

A. Tick (✓) the correct answer:-

1. Which of these is not a part of the circulatory system?

- (a) arteries (b) urethra (c) capillaries (d) veins

Ans:- (b) urethra

2. What is the normal pulse rate of a person?

- (a) 0-20 per minute (b) 20-40 per minute
(c) 40-60 per minute (d) 60-80 per minute

Ans:- (d) 60-80 per minute

3. Which of these is not a part of the urinary system?

- (a) urethra (b) kidney (c) intestine (d) urethra

Ans:- (c) intestine

4. Which of these organs cleans the blood?

- (a) heart (b) kidney (c) stomach (d) brain

Ans:- (b) kidney

B. Fill in the blanks:-

- The heart lies in the left side of the chest.
- The blood pumped by the heart to the lungs contains Carbon dioxide.
- The main waste material formed by the liver is urea.
- Urine is carried from the kidneys to the urinary bladder by the Ureter.

C. Give one word answer:-

- A red fluid that flows throughout the body
- The blood vessels that carry blood from the heart to different parts of the body
- The process by which the body removes wastes.
- The pair of bean-shaped organs on each side of our spine behind the stomach.
- The main waste in urine.

Blood

Arteries

Excretion

Kidney

Urea

D. Write Short Answers

Q.1 Which organs constitute the circulatory system?

Ans:- The heart blood and blood vessels constitute the circulatory system.

Q.2 What are the materials carried by the blood?

Ans:- Blood carries oxygen, nutrients and other substances.

Q.3 How can we check our pulse?

Ans:- We can check our pulse by putting two fingers of one hand on the wrist of other hand.

Q.4 What is the main function of the excretory system?

Ans:- Removal of waste from body is main function of excretory system.

E. Answer These Questions

Q.1 Differentiate between arteries and veins what is the importance of capillaries ?

Ans:- Arteries:- (i) Arteries carry blood from the heart to the rest of the body.

(ii) All exchange of gross waste take place

Veins:- (i) Veins carry blood from different part of the body to the heart.

(ii) nutrients or waste take place through the capillaries.

Q.2 Describe how blood flows throughout our body.

Ans:- Veins carry deoxygenated blood to the heart. The heart then pumps this blood in to lungs. In the lungs. The carbon dioxide is removed the blood then collects oxygen which comes back to the heart. The heart pumps this blood to all parts. This cycles goes on.

Q.3 Explain how body waste is removed through the urinary system.

Ans:- The impure blood goes to the kidneys. Kidneys filter the blood and remove waste and extra salt and water from the blood. The waste along with the excess water and salts turns in to urine reach kidney sends the urine to the urinary bladder which passes the urine out of the body through urethra.

Chapter 8 - Means of Transport

Question and Answer

A. Tick the correct answers :-

1. Railways were introduced in India in the year

- (a) 1850 (b) 1853 (c) 1854

Ans :- (b)

2. Which is the busiest sea route in the world ?

- (a) Suez Canal route (b) North Atlantic route (c) Panama Canal route

Ans :- (b)

3. The lagoons of are used for navigation

- (a) Bihar (b) Tamil Nadu (c) Kerala

Ans :- (c)

4. The Suez Canal was built in

- (a) 1869 (b) 1870 (c) 1914

Ans :- (a)

5. Which is the fastest and the coastliest means of transport?

- (a) Waterways (b) Airways (c) Railways

Ans :- (b)

B. Match the following.

- | | | |
|-------------------|----------------------|-----|
| 1. Panama Canal | a. Wright Brothers | (3) |
| 2. Rhine, Danube. | b. Fuel. | (5) |
| 3. Aeroplane. | c. Private Airlines. | (4) |
| 4. Jet Airways. | d. 1914. | (1) |
| 5. CNG. | e. Europe. | (2) |

C Fill in the blanks :-

- The transport system can be grouped into three categories.
- Golden Quadrilateral Road System connects Delhi , Mumbai , Chennai and Kolkata.
- G.T. Road is the longest road in India.
- The steam engine was invented by James Watt.
- Aeroplane was invented by Wright Brothers.
- Rajdhani and Shatabdi are the two fastest trains of India.
- Metro is an underground or elevated railway.
- North Atlantic Route is the busiest sea route in the world.
- CNG is used in vehicles to avoid pollution.

D Write true or false :-

- Transportation plays no role in the development of a country. (False)
- Kutch roads have a rough surface. (True)
- The development of automobiles has lead to the need for improvement of roads. (True)
- The development of railways began with the invention of steam engine. (True)
- TGV is the fastest train in the world. (True)
- Waterways are cheaper than other means of transport. (True)
- Ganga and Brahmaputra are used as inland waterways. (True)
- We must avoid traffic rules to avoid accidents. (False)

E Answer these questions :-

1. How has Railways enhanced its speed and capacity ?

Ans :- The speed and capacity of the Railways to carry loads or goods is enhanced by construction of multiple tracks and installation of modern signalling systems.

2. What are 'Transcontinental Railways' ?

Ans :- In USA and Canada many trains connect Eastern Coast to the Western Coast. These are called Transcontinental Railways.

3. Why are waterways cheap ?

Ans :- Waterways are cheap because they do not require building of tracks and roads. They only need ports for loading and unloading facilities.
